

Book recommendation by Edith Exampleton

RESEARCHER, ROCKET SCIENCE

Book title

Book author

Your motivation will be placed here. In addition to the text explaining why you recommend the book, we would like the following information from you:

Position and subject area: How would you like to be presented? Please choose your main position so that it fits into our templates for book blurbs and information screens, see above.

Photo: You may either send the same photo you use on your personal webpage, or a completely different one. Please attach it to the email if possible.

And here is some filler text for the sake of the template. Read this book because it's fun! Read this book because it's good fun! Read this book because it's fun! Read now!
